# ***Promotion Display***

A portable demo counter or promotional display stand is ideal for retail sales applications, including the in store sales promotion of specific products and food taster displays. A promo counter can be used as a temporary or semi-permanent display and we offer our retail display counters in a wide range of sizes, colours and styles to suit all applications. Whatever your needs, freestanding promotional counters and demo kiosks are lightweight and flat pack for easy transportation. Promo stands as they are also known, are versatile and flexible for all kinds of retail sales promotion activities including food sampling.

# ***Brand Identities***

Brand identity is different than brand image, which is what consumers actually think. It is constructed by the business itself. A negative gap between brand identity and brand image means a company is out of touch with market sentiment, which will make selling its products more difficult. The brand image held by consumers can reach a point at which a business or product has to rebrand itself or risk not bringing in sales.
